Re: Invoice INV-2026/0347; Purchase Order PO-BMS-26-0112

Dear Mr. Delacroix-Hale:

This firm represents Harrowgate Fastener Supply Co. ("Harrowgate") in connection with the unpaid balance of $48,612.50 on invoice INV-2026/0347, issued February 20, 2026 for goods ordered by Bellwether Marine Systems, Inc. ("Bellwether") under purchase order PO-BMS-26-0112 and the parties' Master Supply Agreement dated November 3, 2025 (the "Agreement").

The goods — including 12,000 units of PN 44-B/7 and 20,000 units of PN 17-K.3/A — were tendered by Tri-County Freight Lines and delivered to Bellwether's Dock 4 on February 24, 2026, as shown by the signed delivery receipt for bill of lading TCF-889104. Bellwether's assertion that "the shipment was never received" is contradicted by that receipt and by the carrier's electronic delivery scan.

Section 7.2 of the Agreement required Bellwether to give written notice of any non-receipt or shortage within ten (10) days after the invoice date, i.e., by March 2, 2026. Harrowgate received no such notice. Bellwether's first communication disputing delivery was sent on March 9, 2026.

We understand, moreover, that on or about March 4, 2026 Bellwether released a Harrowgate pallet to the carrier as "unclaimed." Goods in Bellwether's possession for eight days were plainly received; Bellwether cannot avoid payment by handing them back to a third party without notice to Harrowgate.

Demand is hereby made for payment of $48,612.50, plus interest at 1.5% per month under Section 4.3 of the Agreement, within ten (10) days of the date of this letter. If payment is not received, Harrowgate intends to commence arbitration under Section 12 of the Agreement and the Commercial Arbitration Rules of the American Arbitration Association, and to seek its fees and costs.

Please also take this letter as notice to preserve all documents and electronically stored information concerning the shipment, including receiving logs, dock camera footage, and communications with Tri-County Freight Lines.

Very truly yours,

Evelyn Stroud
