MEMORANDUM

TO: File; cc: Dana Okafor, Sales
FROM: Raymond Voss, Controller
DATE: March 16, 2026
RE: Bellwether Marine Systems — INV-2026/0347 (PO-BMS-26-0112)

Summary. Bellwether Marine Systems, Inc. has not paid invoice INV-2026/0347 for $48,612.50, which was due on March 7, 2026. Bellwether's procurement manager, Zoë Müller, wrote on March 9 that "the shipment was never received." Our documentation says otherwise: the carrier's proof of delivery shows the pallet was delivered to Dock 4 on February 24, 2026 at 2:47 p.m. and signed for with the initials "TK."

Background. The order was acknowledged by Dana Okafor on February 9 and shipped on February 19 by Tri-County Freight Lines under bill of lading TCF-889104 (PRO 0047-2219-6). The pallet held PN 44-B/7 hex flange bolts, PN 44-C/2 washers, PN 17-K.3/A lock nuts and PN 90-T/12 sealant. Under the Master Supply Agreement the terms are FOB Destination, so risk of loss stays with us until delivery; the question is therefore whether delivery happened, not whether the goods were later misplaced.

Customer history. Bellwether has been a customer since 2019 with no prior payment disputes. Its accounts receivable balance with us is otherwise current.

Amount. The outstanding balance is $48,612.50, excluding interest.

Recommendation. Place Bellwether on credit hold and refer the matter to outside counsel for a demand letter. In the meantime Dana should ask Bellwether's receiving supervisor to check whether the signature on the delivery receipt belongs to anyone on his team.
